REVIEW OF THE SEEING

STICK

- Orwell's description of a dark future is so perceptive it is truly frightening. The world that our hero steps into is not an evil world, it is not a fantasy description of a world where evil creatures beyond our world has taken over and forced humanity into slavery. Rather it is a world where the dark sides of the human nature has been given the chance to rule. The book holds numerous references to the horrors of stalinism and nazism as well as describing the problems with democracy (the same argument that he brilliantly describes in his previous novels and essays). Also it shows the problem of the individual within the kollektive and how easily groups and structures can hold the

individual hostage. I believe that this book goes beyond describing a world that was, but instead should be held up against a world that could be if we are not careful. I recommend this (and any other Orwell) book with every fiber in my body.

- Take a deep futuristic look into the mind of author George Orwell in his intense novel, 1984. Orwell's ideas of what our world will be like in his future, is a pessimistic outlook on his new world. The "Big Brother" controls all, and the civilians of Oceania are powerless. People lack many of the simple freedoms that we are associated with today, and the government runs everything. Oceania is one of the three main super states that are battling for power. The city has a system of monitoring that will

keep all residents from rebelling or from even thinking about it. The plot includes all the things that many great books do, including: love, lust, crime, and deception. This great novel shows how the creative mind of Orwell can bring us to the world he thought was to become in the year, 1984. As the story begins we meet our main character Winston Smith walking through the corridors of a large building. We quickly learn of the many new things to his world including the "Big Brother." Seeing signs posted and messages spread across the walls, Winston can not escape the watchful eye of the "Big Brother." Telescreens are everywhere and he is unable to escape their watchful eye. Winston eventually buys a journal and writes in it. From the first stroke of his pen, he is overwhelmed

with the fear that he is going to be caught and go to jail. As he writes the words, "DOWN WITH BIG BROTHER" he knows that even if he had only thought it, it would be just as much of a crime. In fact, the thought crimes were known as the worst. Winston works in the Ministry of Truth, here he alters historical records to fit the needs of the party. He meets a beautiful woman at work, with dark hair, Julia. He is worried that she is an informant who will turn him in for his thought crimes; however she turns out to be an admirer and is in love with him. They are in the same thought the party, and become lovers. They begin a covert affair to see if anyone is monitoring them, and eventually move into the second floor of the store where he purchased the journal. They continue on

together for a long time, and Winston is sure that they will be caught and punished, while Julia is much more optimistic. Winston becomes fixated with a party member named O'Brien, who Winston believes is a secret member of the Brotherhood (a mysterious group trying to overthrow the party.) Finally one day, Winston's dream comes true, and he is called on by O'Brien. This is what the couple thinks is the beginnings of something great. At O'Brien's luxurious apartment, he reveals that he is also against the party and all that it stands for. Then he asks for Winston to join the Brotherhood and help to stop the party and hands him the manifesto of the Brotherhood to read to Julia. Then something goes wrong, and our characters are caught up in a tricky web

of lies and deception. The way the Orwell is able to set up the characters makes you read faster and deeper into the story. He is able to draw you in using a very simple technique of being instinctively vague. My mind would race as I read the pages of this spell binding novel, and I know how Orwell was able to turn such an ordinary event like the birth of a new year, into what would seem like

a hellish nightmare. The "Big Brother" makes you think how a totalitarian government would be run. What if the world had turned into this place, what if there were people watching us and recording our every move thought, it makes me glad that I am a citizen here in the free country of the United States of America.
