## REVIEW OF FUNDAMENTALS OF MANAGEMENT 9TH EDITION ROBBINS SP

- Prior to reading this I thought that maybe as Huxley got older he might have improved as a writer. Evidently he didn't. This was even worse than Brave New World. In Island he seemed keen to promote his concept of magic mushroom so-called moksha medicine, as a means of inducing "dazzling ecstatic insights", coupled with meditation to make the insights permanent. This would lead to "liberation from the bondage of the ego". Sounds nice. It's the sort of book I imagine pot-smoking male backpackers stowing in their backpacks as they traipse round countries like India and Tibet in search of enlightenment, probably to be left mostly unread, but maybe to be occasionally produced as evidence of being against "the system". In the book there are such things as the "splendid rumble of Sanskrit" and such insights as "Elementary ecology leads straight to elementary Buddhism". I suppose such reasoning might make perfect sense if the reader had smoked enough pot before coming to that line. The message of this book is to take hallucinogens regularly to enhance consciousness. There's no mention of any harm that this might cause. I regard it as an irresponsible way for Huxley to end his writing career.
- When Hyacinth meets her future husband (soon to be a successful doctor) Gerald, her mother doesn't trust him. As time goes by he charms everyone. A fire leads to blackmail, divorce, and the issue of custody. Arnie, the partner to Gerald in their medical practice tries to make everyone happy. But does he have a motive for this. This was an excellent book I could not put down. I loved it.
