REVIEW OF SAP FI FUNCTIONAL DESIGN DOCUMENT

- This book, despite being rated very poorly by people who had to read it for their middle school english classes, is a very good book. The book illustrates how mankind is always just one generation from barbarism. Society can deteriorate and crumble in a hurry.

- **Spoiler Alert** This review does give away the ending. In the book Lord of the Flies, Ralph and Jack are the two main characters struggling to gain leadership. They have many different views on how to best live on the island. Jack thought hunting would be the best way to survive on the island. Ralph's idea was to start a fire on the top of the island so that they might get the attention of any passing boat and be rescued. Ralph also wanted to keep things as civilized as possible while Jack preferred to start a tribe and live like the Indians would. After Jack captured some of Ralph's most loyal companions, Sam and Eric, Ralph goes to save them. When he gets there, the twins, Sam and Eric, are covering the side of Jack's island that Ralph approaches. Sam and Eric tell Ralph that everyone in Jack's tribe is going to hunt him, so Ralph runs after being chased across the island. He sees a Naval Officer on shore that rescues all the kids. The Naval Officer saw the fire and Ralph's civilized ways saves them all. Ralph's character is strong-hearted, smart and always trying to help others. Another character like Ralph is Zech from the book series A Land Remembered. Ralph is strong-hearted and always tries to stick through hard times just like Zech. Both are smart and both try their best to help others. Ralph will lead the kids of the island and help them off the island. Zech would rather ask for something for his horse Ishmael than for himself. The two characters would probably get along well if they could learn to respect each others opinion. If both were put on the island, they would help each other because the island converted to Jack's tribe since no meat was being collected. Zech would know how to capture pigs since he has herded cows with his dad and company. The Lord of the Flies is a book that shows how people push themselves to do what is best. Ralph tries to show the ways of civilization and how to get saved. Jack tries to find ways to get meat and take over the island. This book is great for testing your mind and for considering which decisions you would make. To figure out how the decisions the boys made played through, people should read the book and find out. Overall, one through five, with a five being the best, I would give this book a four. I would recommend this book to a reader that needs to know in perfect detail the setting because this book is great at describing the setting. The book also has some long chapters, so if you do not like the author giving two paragraph chapters this is a good book for you. It is also great for readers that like adventure and some action. This is not a great book if you like romance and love stories because this book doesn't have any romance at all. Overall, I would recommend this book for many young readers.
