## **REVIEW OF WINDSOR ADMIRAL PLUS**

- I bought this book after taking up reading as a way to help me relax. I figured since it took me so long to be able to enjoy reading, I should try some of the books covered in High School or college that I never got into. I've only read two short stories and about 5 poems. He captures the audience just as any modern day writer would without the "modernation". It takes me a while to warm up to the word selection, because I'm not use to reading it, but after that, the stories really capture your mind's

eye.

- I sing this to the kids, and show them the pictures, they love to sing along and

point to body parts. My 3 year old nephew loves bugs, so he has a lot of fun pretending a spider is crawling all over him.
