PDFSDOCUMENTS2

- Read this book in one sitting. Bob Tininenko - if you are out there please know that you are an inspiration to all of us. Thanks!
- A collection of Gore Vidal's essays covering the years 1992-2000, "The Last Empire" is a fine addendum of sorts to the epic "United States." Vidal is once more concerned primarily with the subjects of art and politics, and he's at his best when his two preoccupations meet, as they do several times in this volume. Vidal, perhaps out of rivalry, perhaps out of genuine contempt resulting from objective analysis, makes a meal out of author John Updike in "Rabbit's Own Burrow," the lengthy essay that may be the highlight of this

collection. When Vidal brings out his carving knives, you may sometimes pity whomever he deigns to dine on, but you're likely to be satisfied with the feast he serves. Vidal can be nice, too, and his thoughts on Frank Sinatra shortly after the crooner's death, are enlightening for anyone who squirmed at the sight of the Voice's seemingly illogical embrace of conservative politics after a lifetime of populism. Elsewhere, in his reaction to the death of Richard Nixon, you're not entirely sure where he stands. Vidal seems to have a grudging respect for the man he did so much to villify. Vidal's massive ego takes to the stage in "A Note on The City and the Pillar and Thomas Mann" in which he shares with us entries from Mann's diary praising...Vidal! It could almost be too

much to take if Vidal weren't so amusing even at his most insufferable. Vidal is the last of the great curmudgeons, but unlike most of that breed, he resists being fully lovable. His sense of superiority keeps even some of his most avid admirers at arm's length, but whether one agrees with his views or not, he never fails to make you think and to laugh.
