REVIEW OF DON JUAN FROM SMOKEY Joes CAF SHEET MUSIC IN C MAJOR

- Considering his age when he began this book, it is well written. It is entertaining, and kept me interested for the most part. There were parts that did ultimately bore me, but overall, I enjoyed it. I noticed, like others have, some of the characters are very shallow, I he spends too much time introducing too many new characters, that the reader gets lost trying to decipher each one's personality, and in the end, this leads them to be somewhat 1-dimensional. There are exceptions to this of course, but it seemed like a prominent problem throughout the book. The other thing that disappointed me was his basic photocopy of many of his ideas from Tolkien's Ring Trilogy, and McCaffrey's Pern books, but I attribute that to his young age. Overall, I enjoyed the book, and would recommend it, but do not expect to be dazzled by a brilliant fresh new writer. Remember, he was young, and was still searching for his voice. He can only get better with time ... or so we hope.

- I picked up a copy of "Eragon" after it received so much favorable press because it was written by some 19 year old wunderkind, but I have to tell you: it's a clunker. I mean, it's a great effort for someone his age, but I found myself constantly thinking, "This isn't bad....for a 15 year old." I finally gave up after reading almost 100 pages. The writing is highly derivative and the characters are not well realized, but it's a story that a 10 or 12 year old might enjoy. I was irritated by cutesy affectations such as his referring at one point to a dragon named "Bid'Daum." Anyone read "Dune" lately, and recognize that as Muad'Dib spelled backwards? I do not appreciate that kind of distraction when I'm reading, and I kept wondering what other references I might be missing. The author shows a great deal of talent and potential, however, and I will be interested to see what he does in about 10 or 20 years.
