Is there such a thing as an 'entrepreneurial personality'? What makes someone an entrepreneur is a question that has intrigued the lay person and the scholar for many years, but can such a personality be identified or is it simply a socially constructed phenomenon?

Elizabeth Chell pursues an alternative line of argument: to show that the entrepreneurial personality is, on the one hand, socially constructed, but on the other hand, presents consistency in behaviours, skills and competencies. This second edition of the highly acclaimed *The Entrepreneurial Personality* revisits the topic and updates the evidence from a multi-disciplinary

perspective. The book carefully weaves together the arguments and views from economists, sociologists and psychologists in order to develop a strong conceptual foundation. It discusses the inferences that these experts have made about the nature of entrepreneurs and the entrepreneurial process, and explores whether such evidence has enabled psychometricians to develop robust instruments for assessing the characteristics of entrepreneurs. The evidence for a range of purported traits is reviewed and the models and research designs of interested social scientists are explained and evaluated. Throughout,

Chell laces her argument richly with a set of cases derived from primary and secondary sources. This book presents a timely set of views on the entrepreneurial personality, and will be of great interest to academics in the fields of entrepreneurship, economics, management, applied psychology and sociology. This accessible text will also appeal to the interested general reader, as well as practitioners and consultants dealing with entrepreneurs in the field.

REVIEW OF

ENTREPRENEURSHIP 8TH EDITION BY HISRICH ROBERT PETERS

- I like the book, it is easy to read and makes you feel that you are part of the story. It is much easier to read this copy compared to the earlier books of the Hobbit. The characters are always getting into something, and its fun to see what they got themselves into now.
- Bilbo Baggins, one of the small, fat persons called hobbits, is just minding his business one day when 14 dwarves arrive for breakfast! Little did Bilbo know what was in store for him. Soon Bilbo was away on a weird adventure, the story in "The Hobbit".

liked this book because it had great characters which were described with great detail. You can see the great detail in this excerpt: "They are (or were) a little people, about half our height, and smaller than the bearded dwarves... They are inclined to be fat in the stomach; they dress in bright colors (chiefly green and yellow)". I liked the fact that the author described his characters with great detail. It makes the story able to come alive in your head, which helps me to understand it and be "drawn in" to the book. I also liked that there was an incredible amount of adventure. You can see adventure in this excerpt: "It is almost dark so that its vastness can be only dimly guessed, but

rising from the near side of the rocky floor there is a great glow. The glow of Smaug!". The adventure also makes you become "drawn into" the book. It makes this book a real page-turner. It also explains the characters a little bit more by how they react to situations that have high-pressure. Although this book has excellent description, I was sometimes frustrated by the lack of suspense, especially in the beginning. You can see a little bit of dullness in this excerpt: "By some curious chance one morning long ago in the quiet of the world, when there was less noise and more green, and the hobbits were still numerous and prosperous,". The beginning makes you

want to throw the book down and never pick it up again. I almost did that myself. But I suggest trying to read on. It gets very much better.
