REVIEW OF VW POLO 1 6 WORKSHOP MANUAL EBOOK TANKETAS

- The Audubon Guides are almost always first rate and the way they are bound and covered make them perfect for the outdoors. This particular guide in typical fashion for the series is strong on color photographs but weak on taxonomy. That being said as the enthusiast continues in the hobby and their library on butterflies grows it is not the type of book one will discard, "re-gift" or consign to the back of the shelf. Used together with just one other book strong in taxonomy will be a winning combination for the lepidopterist. Highly recommended.
