REVIEW OF ME SINCE YOU LAURA WIESS

- This novel is just fun...not super serious literature but enjoyable.I would recommend this to anyone who loves Italy and food...You can read it in a day....
- This is an awesome book. Kay just keeps getting better and better. It's also fun to see the characters develop more with each book - Kay herself as she seems to be always "one against the world", Marino who it appears is heading towards some sort of heart attack, Lucy who seems to be getting more and more quixotic. In this book Kay finds herself smack in the middle of a series of gruesome killings. It appears that a recently executed murderer, who Kay

herself has seen on her autopsy table, is still around committing crimes. A number of murders occur where the executed murderer's fingerprints are turning up. Kay, Marino and Benton try to track a killer, but it appears that the corruption goes up a long ways into the political stratosphere. This is a taut and totally believable thriller. I can't wait until the next one because the book ended with the way wide open to the next installment.
