REVIEW OF DS EN 1991 1 3 DK NA 201

- I have this book in hard copy and even though I am a tight wad, I had to buy the kindle version so I could read it when ever I wanted to! Its 4 great romance stories. Enjoy!
- The illustrations are pleasant, even beautiful at times. I agree, however, with some of the other reviewers who were disappointed because the illustrations add little to the original Strunk and White classic. What is the point of illustrating examples such as, "Somebody else's umbrella" and other snippets of grammatical examples that in illustrated form are out of context and irrelevant to the book's purpose? Do we really need an edition of Strunk and White for the sake of whimsy? The book is a tool for writers and is beloved for decades for a reason. The addition of illustrations feels like an exercise in distraction.
