## **REVIEW OF GEOMETRY CONNECTIONS ANSWERS CHAPTER 11**

- It's all been said before. Great book, Great simple little story. I love the way this book flows when you read it. The only complaint I have is the

songs they sing in the book. They are really awful and I always just skip them. That said I've read this book multiple times and Read it out loud to my kids when they were younger.

- I loved this book. I have never been able to read a book very easily because I could never pay attention long enough, but this book really caught my attention the whole time. To begin with, a wizard visits the hobbit, whose name is Bilbo Baggins. The wizard puts a mark on the hobbit's door and then leaves. Later twelve dwarves visit the hobbit. They hire him as a burglar to help in their quest. He finally decides to go along, but highly against his own will. They start on the

journey and have all sorts of strange happenings that occur. They encounter goblins and are taken into the depths of a very large underground network of tunnels. Here, Bilbo finds a ring that is quite magical. He does not know it yet, but the ring will prove to be a very vital part of their quest. After the goblins, they meet a man who is both Man and Bear. They manage to ask him for food and lodging for a while, though he does not like strangers. At night, Bilbo hears sounds of scratching and thumping, but does not dare to get up for fear of being eaten by Beorn, who is the Man/Bear. In addition, Beorn's animals have the ability to communicate with him and can do most

anything that a regular man can. The Mirkwood Forest is quite peculiar in itself. The group of twelve dwarves and Bilbo must travel through a forest that is extremely dark. Although it is daytime, the forest is very dimly lit because all the trees form a canopy, which blocks all the light. Near the end of the forest, they become lost. They are forced to battle huge spiders and are eventually captured. Wood-elves. Bilbo slips on his ring in time and is able to follow the elves as they take the dwarves to the cavernous hideout. Each dwarf is questioned to try to find out why he is traveling through the Mirkwood Forest. None will give the answer that the Elf King is looking for, so he

throws them all in prison. While the dwarves are in prison, being quite well fed, Bilbo figures out a means of escape for all of the dwarves and himself. He also has time to learn quite a lot about the inside of the elf cavern. Bilbo gets the chance when a guard and another man go and taste the new wine that has been brought. Both become drunk and fall asleep. Bilbo is able to get all the dwarves out and himself. After this, they are not far from the dragon's lair. Smaug has taken all of the dwarf's treasure in gold and jewels and is in a cave on the Lonely Mountain. The quest of the small company is to reclaim the treasure that is rightfully the dwarves'. Bilbo faces Smaug

and...I cannot tell you what happens, that would ruin it. They also face a war, but you will have to read to find out. I thoroughly enjoyed this book. The characters were very well developed and easy to remember. I usually lose track of who is who in a book, but this book was easy to keep track of the characters. The book is actually quite believable if the reader looks past the fact that the characters are dwarves and a hobbit. I was quite lost throughout the book wondering what the characters were actually feeling. I felt this was a very believable story. I have never been able to sit down and read a book as easily as I did this one. I definitely recommend this book to anyone who wants a good book. It keeps the reader on the edge of his or her seat and has action in almost every page that is read. I recommend this book to anyone, no matter who he or she is. This book is deserving of five stars.
