## REVIEW OF E7J ENGINE

- My copy of this book has been around the block a few times, with wear and tear, but I knew this when I bought it, so am not complaining. Considering it's subject matter is Frank Zappa, it is kind of appropo, in it's own little way. Frank would approve, no doubt, as he, too, always sought to be just a little rough around the edges, too, and told it as it was. The gov. didn't like it, but that just

made it all the much better. Frank, we miss ya, just like we miss George Carlin.

- I have been looking for a book like this! This book is concise, organized and has beautiful pictures, in which most radiology texts have 1-2 of the 3. This book is organized by body part, so that

you can flip between the pages to decipher between entities, which I found extremely helpful. I highly recommend this book to radiology residents, fellows and practicing radiologists. This textbook reads like you have a MSK expert at the viewbox with you.
