## REVIEW OF GENERAL MATHEMATICS QUESTIONS ANSWERS

• This is one of cookbooks I start with if I have no idea what to do. It has so many suggestions, you want to try them all. My favorite is "Simple Macaroni and Cheese". Easier than the box-kind.

• This book was recommended by a pastor at a church I attend. She was teaching on being positive rather than being negative. She showed the beautiful patterns of water crystals when you play nice music as apposed to a heavy metal song where the water crystals could not form and the result was a chaous formation. She taught that as a group and part of the universe, we could make a difference. If we were positive in collection we could make a beautiful water crystal. We are made of 90% water. The water that we drink needs to be pure. The book was exciting to read. A concept that I have never heard of. Ways to make the water we drink safe. An important reason that we should walk in love toward each other. Being possitive and talking positively.
