REVIEW OF EXAMINATION REVIEW FOR ULTRASOUND SONOGRAPHIC PRINCIPLES INSTRUMENTATION SPI

- I got this book so I could get up to speed with C# and the whole OO philosophy. It contains a lot of material but is a very dry read. I found the Learning C# by Smiley a much more

entertaining read and covered basically the same material.

- I am rarely so moved by a book that I cry at the end, but that was the case

with this book. I found it entertaining, touching, and very moving. The character of Ivy, and the others, are all very real and likeable. I would definitely recommend this book to anyone.
