## REVIEW OF THE MIKOYAN GUREVICH MIG 17 DEDICATED LANSET

- I'm an ambitious crocheter and I find most patern books too basic and the patterns boring. This book I got first from the library and I was impressed. There are a lot of patterns that I want to make and even one of the scarf patterns is so fun I'm going to make it despite my dislike of scarves! My favorite is the tweed blazer jacket.

- It was no secret that K had a long term relationship. He told some of his close friends about it. It's a private matter anyway. Radha's account on the other hand is not an expose, it is a nasty, malicious character attack of a man who is dead and can't defend himself.Her book is filled with logical inconsistencies: conclusions that simply do not add up. A book by someone who totally missed the boat for those who've missed the boat and are looking to rationalize it. Radha wrote to me that ultimately because of freedom of speech she can say anything she wants. That's how she justified the logical inconsistencies!! Too bad she didn't have the guts to do that when K was alive.
