## **REVIEW OF APPLICATION OF VALUE ENGINEERING METHODOLOGY FILE TYPE PDF**

- I was pleasantly surprised to find this on Oprah's list. I read this book in college and it was my first exposure to magic realism. Such imaginative

narrative is hard to come by and who could forget such events as the discovery of a dead angel, the whole town suffering from insomnia, or the beautiful Remedios (one of many) ascending to heaven? Just as a sidenote I find one of the characters toward the end is disturbingly like Michael Jackson with his lifestyle of decadence and his penchant for the company of little boys. It's a book that is

very sensual and colorful, I would love to see it transferred successfully to film. But this book is not for anyone. Just for those who love truly imaginative literature.

- The book was shipped to me very quickly and is in good condition; however, I would have liked to have known what other stories were included in the book ahead of time.
