REVIEW OF BETWEEN WORLDS A READER RHETORIC AND HANDBOOK 7TH EDITION PDF BOOK

- Arrived as expected; this was a used textbook and the content is exactly what I needed and was looking for.
- This would be the ideal "airplane book" or weekend read. The story line is intriguing, the characters well-drawn. While some reviewers have compared it to *The Da Vinci Code*, it is not as tightly written, and the author's tendency to jump around in time makes it a little more difficult to follow than *Da Vinci*. The story revolves around the initially innocuous death of a history professor in a quiet, rural Connecticut town. Yet as a young reporter digs more into the deceased's past, things get complicated. The book gets even more complicated, as several parallel story lines are woven through the book - and not woven too skillfully I might add. (In defense of the author, it seems more a function of a budding writer than of the author trying to be clever or throw out red herrings.) I enjoyed the interplay of historical and fictional characters (the Geographer referred to in the title, for example, al-Idrisi, really was an alchemist in the 12th century) and the self-deprecating humor of the protagonist. But I have to agree with several other reviewers that the conclusion of the story was a bit of a let-down. For a short distraction, I recommend it.
