REVIEW OF ECONOMICS OF STRATEGY 6TH EDITION

- I love Martha Grimes' English 'cozies,' and this, the first of the Richard Jury series, is one of the best! Grimes can build atmosphere wonderfully, and her characters are entertaining. This story, like most in the series, makes a good read. I strongly recommend it!
- Kevin Phillips sounds a wake-up call for Americans in this cautionary book about religion, oil, and consumerism. The chapters on religion were the first I read, and I was disappointed. Not all Christians

believe that the Earth was created in 6,000 years (I certainly don't) yet that point is constantly hammered home by Phillips. Not all Christians are young-earth creationists. Some believe in evolution; some don't. Any scientific theory--be it evolution, gravity, or relativity--should be questioned and tested. The notion that questioning the validity of evolution makes one stupid is nothing more than an ad hominem attack. Logical fallacies do not prove a theory, Mr. Phillips. A better question to ask, 'is the radical religion that is being quoted extensively by Mr. Phillips really the religion that Jesus taught his followers?' There is a huge amount of corruption in government today, both in the U.S. and abroad. This book really is telling me something I already knew.
