## **REVIEW OF BAD BOY DCI BANKS 19**

- I purchased this book as a Christmas gift for my 11 year old son. He loved it! He spent several days showing me things in the book that had really touched him or made him think.
- If you're trying to understand Maoism better and for the reasoning behind what Mao did in China this is not the first choice. I'll be the first to admit that I chose this to be my first book into understanding Maoism but in all honesty it should be one of the last. At least the name of the book doesn't lie. This book really is just a bunch of quotations from Chairman Mao. However most of these quotations are so generic and filled with propaganda that it doesn't help at all in

understanding the policies put in place during his time leading China. Not only that but they just state the obvious most of the time. You can open up any page of the book and see something like this. The thing is though that from one page to another he is saying the exact same thing in a different way. If you want to understand Maoism you need to look

elsewhere and come back to this book later. Things like the Cultural Revolution or his Great Leap Forward are not discussed in great detail (I can't remember even if at all) and I find it amazing that the Chinese mass produced the book when it provides little in providing the people with a basic knowledge of communism.
