REVIEW OF DURABRAND HT 400 USER GUIDE

- The material is fascinating, and leaves you wanting more. Hazelgrove has trawled through mediums' biographies, books on spiritualism, novels based on the subject, accounts of visits to seances. From this wealth of forgotten literature she has distilled the essence of attitudes to spiritualism that spill out into wider considerations of religion and science. She has the current feminist academic attitude. She doesn't judge on the truth or otherwise of accounts of messages from the dead, or the appearance of ectoplasm. Instead she considers what these happenings meant to the people involved, and to society who viewed them with ambivalence. But she is by no means as fair as she pretends to be. She can't mention science without an ill-

concealed sneer, always referring to it as 'the Enlightenment/scientism project' or some such cliché. I agree that ideas of the soul, or of women's place in society, are part of narratives - stories that people tell themselves. But when she considers actual narratives - the autobiographies of mediums - she accepts them at face value instead of seeing them as the literary genre they obviously are. And surely nearly all of them were GHOST-written? No one can fail to sympathise with the distress of medium Helen Duncan, who was subjected to painful indignities disguised as scientific tests of her powers. But what part did her husband play in forcing her to produce phenomena? The testers paid handsomely, probably more than the bereaved sitters who came to her seances. Hazelgrove clearly inhabits a

society in which the 'scientific paradigm' is by no means a dogma, and I suspect she objects to science because it makes belief in a spiritual realm difficult. That's just a speculation on my part, but it's mild compared to her - I can only call them dogmatic - statements about the unconscious, the psyche, the other, the mother and what have you. I enjoyed this book, but I'd love to read a much longer and less prejudiced work using the same material. She writes well and clearly, despite feeling obliged to use words like 'hegemonic' and 'interpellation.'

- Excellent Service. The product is in excellent condition. I am sure that I will enjoy it much. Delivery was in a very timely manner. Thank you so much, Dee
