Biographical Dictionaries and Related Works: Universal biography

: National or area biography BRILL

This important study takes a new approach to understanding Italian Renaissance humanism, one of the most important cultural movements in Western history. Through a series of close textual studies, Patrick Baker explores the meaning that Italian Renaissance humanism had for an essential but neglected group: the humanists themselves.

**The Effect of the State on the Family** Elogi degli uomini illustri

A collection of ten interdisciplinary essays on the history and diversity of the Italian garden.

Lettere fin qui inedite di E. Torricelli, precedute dalla vita di lui scritta da G. Ghinassi. Con note, etc Fordham Univ Press

The intellectual societies known as Academies played a vital role in the development of culture, and scholarly debate throughout Italy between 1525-1700. They were fundamental in establishing the intellectual networks later defined as the 'République des Lettres', and in the dissemination of ideas in early modern Europe, through print, manuscript, oral debate and performance. This volume surveys the social and cultural role of Academies, challenging received ideas and incorporating recent archival findings on individuals, networks and texts. Ranging over

Academies in both major and smaller or peripheral centres, these collected studies explore the interrelationships of Academies with other cultural forums. Individual essays examine the fluid nature of academies and their changing relationships to the political authorities; their role in the promotion of literature, the visual arts and theatre; and the diverse membership recorded for many academies, which included scientists, writers, printers, artists, political and religious thinkers, and, unusually, a number of talented women. Contributions by established international scholars together with studies by younger scholars active in this developing field of research map out new perspectives on the dynamic place of the Academies in early modern Italy. The publication results from the research collaboration 'The Italian Academies 1525-1700: the first intellectual networks of early modern Europe' funded by the Arts and Humanities Research Council and is edited by the senior investigators.

*(letterati, artisti, uomini d'arme)* Einaudi

This volume of collected essays deals with medicine in the university world of thirteenth to sixteenth century Italy, discussing both the internal academic milieu of teaching and learning and its relation to the surrounding culture of medieval and Renaissance Italian cities.

*Elogi Degli Uomini Illustri Toscani* Oxford University Press

Ruler of Florence for seven bloody years, 1531 to 1537, Alessandro de' Medici was arguably the first person of color to serve as a head of state in the Western world. Born out of wedlock to a dark-skinned maid and Lorenzo de' Medici, he was the last legitimate heir to the line of Lorenzo the Magnificent.

When Alessandro's noble father died of syphilis, the family looked to him. Groomed for power, he carved a path through the backstabbing world of Italian politics in a time when cardinals, popes, and princes vied for wealth and advantage. By the age of nineteen, he was prince of Florence, inheritor of the legacy of the grandest dynasty of the Italian Renaissance. Alessandro faced down family rivalry and enormous resistance from Florence's oligarchs, who called him a womanizer—which he undoubtedly was—and a tyrant. Yet this real-life counterpart to Machiavelli's Prince kept his grip on power until he was assassinated at the age of 26 during a late-night tryst arranged by his scheming cousins. After his death, his brief but colorful reign was criticized by those who had murdered him in a failed attempt to restore the Florentine republic. For the first time, the true story is told in *The Black Prince of Florence*. Catherine Fletcher tells the riveting tale of Alessandro's unexpected rise and spectacular fall, unraveling centuries-old mysteries, exposing forgeries, and bringing to life the epic personalities of the Medicis, Borgias, and others as they waged sordid campaigns to rise to the top. Drawing on new research and first-hand sources, this biography of a most intriguing Renaissance figure combines archival scholarship with discussions of race and class that are still relevant today.

*Catalogue of the Mathematical, Historical Bibliographical and Miscellaneous Portion of the Celebrated Library ... Apr. 26, 1861* ... Metropolitan Museum of Art

"A study based on the text, the *Lives of the Artists*, by Giorgio Vasari. Discusses how the visual arts in the Renaissance were an occasion for delight or pleasure. Argues that such an attention

was encouraged by certain social and intellectual practices"--  
 Provided by publisher.

**Delle Prose E Poesie Liriche Di Dante Alighieri** Penn State Press

Imagination, sensual delight, a sharp wit - these qualities were enormously prized in sixteenth-century Ferrara, where one of the most cultured and powerful courts of the High Renaissance held sway, Dosso Dossi was the idiosyncratic, brilliant painter most responsible for turning those values into a glorious artistic reality. Dosso's rich color schemes are akin to those of his fellow North Italian Titian; he learned something about innovative composition from Raphael and about the force of the body from Michelangelo. But his paintings have a very individual appeal. In leafy natural surroundings containing an array of animals and heavenly bodies, events unfold that are often enigmatic, enacted by characters whose interrelationships elude definition. For this exhibition, almost all the surviving paintings have been brought together; in the catalogue entries each one receives a fresh and comprehensive scholarly discussion. The catalogue also contains

essays that describe Dosso's artistic career and the highly charged world of the court at Ferrara and that probe the visual poetry and subtle wit of his work. The illuminating results of an extensive campaign of technical examination, undertaken in connection with the exhibition, are discussed and illustrated in additional essays and in observations that accompany the catalogue entries throughout.

*Elogi degli uomini illustri Toscani* Routledge

Giorgio Vasari and the Birth of the Museum offers the first dedicated and comprehensive study of Vasari's original contributions to the making of museums, addressing the subject from the full range of aspects - collecting, installation, conceptual-historical - in which his influence is strongly felt. Uniting specialists of Giorgio Vasari with scholars of historical museology, this collection of essays presents a cross-disciplinary overview of Vasari's approaches to the collecting and display of art, artifacts and memorabilia. Although the main focus of the book is on the mid-late 16th century, contributors also bring to light that Vasari's museology enjoyed a substantial afterlife well into the modern museum era. This volume is a fundamental addition to the museum studies literature and a welcome enhancement to the scholarly industry on Giorgio Vasari.

*I: A-L*. Routledge

Analyzes texts and art objects from the 15th to the late 16th centuries to show that Renaissance theories of emulating classical heroes generated a deep skepticism about representation, as these theories forced men to construct a public image that seemed fixed but could adapt to changing

circumstances.

**Elogj degli uomini illustri toscani. Tom. 1. [-4.]** BRILL

In *The Accademia Pontaniana: A Model of a Humanist Network* Shulamit Furstenberg-Levi explores the intellectual networks which developed around the fifteenth century humanist Pontano. She applies recent sociological theory to investigate links between the various Italian humanist circles.

*Hollow Men* Walter de Gruyter GmbH & Co KG

Italian Academies have typically been studied individually or in the context of specific cities, leaving an important lacuna in the scholarship on Italian culture and early modernity. Cutting across various disciplines, this volume traces the relationships of these Academies and explains how they prefigured networks like the République des lettres.

**Elogi degli uomini illustri** Springer

The portrayal of princes plays a central role in the historical literature of the European Renaissance. The sixteen contributions collected in this volume examine such portrayals in a broad variety of historiographical, biographical, and poetic texts. It emerges clearly that historical portrayals were not essentially bound by generic constraints but instead took the form of res gestae or historiae, discrete or collective biographies, panegyric, mirrors for princes, epic poetry, orations, even commonplace books – whatever the occasion called for. Beyond questions of genre, the chapters focus on narrative strategies and the transformation of ancient, medieval, and contemporary authors, as well as on the influence of political, cultural, intellectual, and

social contexts. Four broad thematic foci inform the structure of this book: the virtues ascribed to the prince, the cultural and political pretensions inscribed in literary portraits, the historical and literary models on which these portraits were based, and the method that underlay them. The volume is rounded out by a critical summary that considers the portrayal of princes in humanist historiography from the point of view of transformation theory.

## REVIEW OF ELOGI DEGLI UOMINI ILLUSTRI

- If you want to read an interesting book about Jews and their way of living, but you want a suspendable novel as well ?? Check out this masterwork of Potok.
- My brother had to read this novel as an assignment for highschool, so I ordered this for him. It arrived Two-Day, as I ordered and expected. It was used, like I ordered. The pages were yellow-- basically, you know, the old book feel that people (including me) love. My brother wasn't a fan. But he thought the story was satisfying (there were no raves about the storyline), but he had no complaints either. I would recommend this seller!
