REVIEW OF CHAPTER 26 URINARY SYSTEM QUIZ

- I first got onto Thomas Hopp via his mystery thriller, the Jihad Virus. Here he shows us his versatility by writing in a completely different genre, science fiction. One thing that seems to run through everything I've read is a sense of high adventure. In this book we once

again get treated to heart-stopping chase scenes where dinosaurs threaten to make a meal of somebody. There are new battle scenes from the intrepid tank commander, captain Vic Suarez, a favorite of mine. The old paleontology professor Dr. Ogilvey is a treat as well. He's such an old curmudgeon, but with a heart of gold. And the budding romance of Kit Daniels with Chase Armstrong is in trouble this time. This book is crafted extremely well. Good solid prose and a gripping series of high-tension events. It's good for readers of all ages, great for adults, but no adult situations. Plenty of dinosaurs, action and adventure.

- This is my favorite book by my favorite author. He just started writing again so I knew from years of searching that a used was going to be the best I could

find, and this is. It's in great shape and just as if I got it at the library.
