REVIEW OF ZEISS CALYPSO TRAINING

- The traditional approach to Social Work is biopsychosocial, which is reasoned to be inclusive and holistic. Body-Mind-Spirit takes person-in-environment to a whole new plane by recognizing spirituality as a significant driving force for clients. Long-overdue, refreshing, and expansive!
- Having been so impressed with the original "Megatrends," I was very much looking forward to this edition. Unfortunately, the authors' crystal ball failed too often this time around to inspire much confidence. One major flaw, I think, is that there is much less content analysis used in tracking these trends and far too much fluff in the way of interviews and anecdotes. Too, in "Megatrends," statistics were used to back up forecasts derived from content analysis. Here statistics and surveys seem to be the sole basis for the forecasts. Perhaps the authors' thought the original work was too dry, or perhaps they were just trying to capitalize on a winner with a quick and dirty follow-up. In any case, this book was not nearly as insightful, or useful
