So what are you waiting on? Begin your Abu Dhabi International Building Code downloading and install journey today and experience all the benefits and convenience that the electronic globe of books needs to supply!

REVIEW OF ABU DHABI INTERNATIONAL BUILDING CODE

- One of the saddest things about seeing the Star Wars prequels taking such a drubbing from critics and fans is knowing how hard the artists and designers work to make these movies go from concept to the finished film. I admit it; I am one of those rare fans who apparently enjoyed Episodes I and II, and I owned this book several weeks before Attack of the Clones was released in May 2002. The book

is beautifully designed and Mark Cotta Vaz's accompanying text to the conceptual art is authoritative yet accessible even to younger readers. The many designs -- even those not used in the movie -- evoke memories of the earlier trilogy's Art of...series, and one can see the "evolution" of the many ship and costume designs to what fans call Classic Star Wars. (To me, the most interesting "fact" is that Obi-Wan's Jedi Starfighter's lines will be echoed in the evil Empire's Imperial Star Destroyer.) The screenplay by George Lucas and Jonathan Hales (who also wrote the story for The Scorpion King) is included. It is the complete "before edits were made to the film" draft, which allows readers to catch glimpses of Padme Amidala's family and other scenes that were filmed but later deleted. (Those scenes are included on the extra features disc of the Episode II DVD set, but some fans may only have the VHS version instead.) For Star Wars fans and film art aficionados, this book is definitely a keeper.

- Really enjoyed this book, the twist at the end keeps you guessing. Lee Child is one of the best writers around.
