## **REVIEW OF PRINCIPLES OF PHARMACOLOGY GOLAN 3RD EDITION**

- Saeed the Pessoptimist now ranks in my pantheon of comic heroes up there with Swejk, Yossarian, Candide, Don

Quixote and Joe from "Milagro Beanfield War." This is a book to be read over and over again. For Americans like me persuaded to believe Israelis occupied an empty land (Palestine) after the horrors of WWII, Edward Said's works are helpful. For the feeling and experience of a Palestinian in Israel, however, Habibi gave us a distilled, comic masterpiece. "The Pessoptimist" is not just one more protest novel. Habibi ranks in the history of the comic novel for his amazing treatment of Time. Time itself -- history -- become original comic characters in this novel, their companions being Saeed's "friends from outer space." The author said *Svejk* and *Candide* inspired him. "Pessoptimist" is picaresque but the chapters (events, whatever) are written in a style of wonderful, unique, surreal

journalism that span many years rather than occurring within the context of a single journey. So, quite aside from Habibi's achievement in making Palestinians real (a neat trick at present and one that won't make your life any easier when you watch the news) I think his style adds something to the development of the comic novel. It opens new possibilities for treating time and history. So it is a real contribution to the understanding we gain from literature.

- This is the sequel to *Procurator and New Barbarians*, where Germanicus Julius Agricola eventually wound up becoming emperor in a Rome that never fell. In this book, his Republican dream-a Rome without an Emperor, governed by the Senate-are discovered and a

conspiracy forms that puts him on the run, and later plunges Rome into civil war. Don't be hoping for a conclusive ending though-this book ends on a cliffhanger.
