Long Range Shooting Handbook Gunsmithing Student Handbook

The Classic Reference - Bigger and Better than Ever One of the most respected reloading texts of all time, Reloading for Shotgunners is now bigger, more comprehensive and more profusely illustrated than ever! This all-new fifth edition includes exhaustive data for lead and non-toxic shot - and it goes well beyond the ho-hum 2-3/4" 12-gauge data contained in other books. From .410 bored to 10-gauge magnum, from 2" hulls to the mammoth 3-1/2", if it can be fired in a shotgun, it's in this book! Rick Sapp, co-author of The Gun Digest Book of Trap & Skeet, has outdone himself in creating this masterful compilation of shotgun reloading data. Whether you're a novice shotgunner or a seasoned reloader, you can't afford to be without this ground-breaking fifth edition of Reloading for Shotgunners.

Penguin

Born Ballistic is the next saga in the epic tale of one of the American West's great industrial and hunting families. Struggling to hold fast to the dream sketched on a napkin and forged on the

factory floor, Bob Nosler's vision helped transform an industry. You know Bob Nosler by the bullets with his name on them, by the accurate rifles built in Bend, Oregon. With one foot in the boardroom and one in the forest, this is the story of a man, armed with a bolt-action rifle and a relentless drive to succeed.

The Handloader's Manual of Cartridge Conversion Floris Books

John Nosler - Going Ballistic is the story of John Nosler - a hunter, innovator and self-taught ballistics engineer. Born in California, he came of age in the Great Depression and raced his home-built cars on the dirt tracks of Huntington Beach and Pomona. From California, he moved to Oregon and embarked on a legendary big game hunting career. He first hunted moose in Canada in the 1940s and recognized the need for a projectile that would stand up to the velocity generated by the new magnum rifle cartridges.

When hunters want a bullet they can depend on, the name they trust, more than any other, is Nosler. From the Partition, introduced to the shooting public in the late 1940s, to the Zippedo, Solid Base and Ballistic Tip, to today's cutting-edge AccuBond, John Nosler built a reputation on accuracy and performance, one bullet at a time. You know his bullets, now read his story.

REVIEW OF HORNADY HANDBOOK OF CARTRIDGE RELOADING 9TH EDITION

- I read *The Bean Trees*, as a junior in high school, and now as a freshman in college, it still sticks out in my mind as the best novel I have read. *The Bean Trees* by Barbara Kingsolver, is a magnificent novel. As Kingsolver's first novel, it takes you on a trip through Taylor Greer's personal and political growth and experiences. It is a journey through the life of a young rebellious girl from Kentucky, who leaves all she knows for a life in the deserts of Tucson, Arizona. The book grabs the reader and drags them into this mystical journey. When you read this novel, you feel as though you are part of the novel. You feel the emotions of Taylor Greer as you read along. You feel love, confusion, defeat, anger and many painful experiences. Taylor is a young girl, who takes this journey, with out any inkling of a clue to what was coming her way. She started as a naive girl who was unaware of the vast impact of the world outside her Kentucky home. She develops into a woman of vision and insight after life changing experiences flood her view of the "real" world. You may find that she still remains naive about certain situations, but her growth is obvious. Taylor is also a character that pretends to be wise above

her years though, but she realizes what part of her is wise, and not just cocky. When reading this story, you will find it hard to put down. I finished it in 3 days. It was a novel I, personally, could not put down, and did not want to put down. I wanted to live the story of Taylor Greer, because in a make-believe way, after reading this story, I felt like I had lived her life. That is what is so amazing about this novel. It is real for anyone of any age. It has something in it that everyone can relate to. This is a must read for sure.

- and I could take 5 books, 5 albums, and 5 movies, I'd probably die of exposure. If I took the bean trees, however, at least I'd have something to start fire with. This could possibly be the worst book ever written. It is easy to read, because the author doesn't try to hard to challenge the readers mind. It is a boring, unrealistic book about a girl's journey across the country. The fact that I'm of the male persuasion may taint my view of the book, but I'm allowed to have an opinion, and also maintain the right to spread it everywhere I go.
