### REVIEW OF CHAPTER 22 REVIEW NUCLEAR CHEMISTRY SECTION 2 ANSWERS MODERN

- I know the people of whom Jaime Bayly writes in 'Yo Amo a mi Mami' - read it and wept, and then started reading it again. He named my world, in all its barbarity. A wonderful book.

- I was so disappointed with Cornwell's latest. I mean, could we have a more tired plot, sub-plots, and ending? I feel like I just had the lame charaters and story from Hornet's Nest shoved down my throat under the guise of a Scarpetta novel. What is with this young handsome guy falling in love with Kay after a quick fling and talking about moving to VA? And what is with her sobbing over the loss of her beloved Benton, only to then become emotionally entangled with some young whipper-snapper moments later? Umm, could I ask what was Marino's purpose in France? Did they ask him anything? Did he contribute ANYTHING, besides coming along as Kay's escort? Was he even a detective at the time, not to mention the detective assigned to the case? If all these other agencies find him so valuble why don't they freakin' HIRE HIM? And the werewolf - I'm glad we got a good view into his twisted mind - NOT! I know, let's pull in some more obscure and fantastic medical conditions to add to the total stupidity of the story, instead of creating a plot line that is actually interesting and clever. It's like you find out what's going on and say, "Ooops, for a second there I thought we had some neat twists and turns coming, guess not." And Kay's lame attempts at 'profiling' then wondering what Benton would've said. Kay needs to get a grip and take a vacation, and maybe address the problems her disturbed niece is having. And why does her sister or mother always make a little appearance in the story - to fill space? Anyway, how many of Kay's boyfriends are going to get blown up? Maybe Kay needs to find someone NOT involved with law enforcement. Or put Marino out of his misery and just sleep with him. That's obviously what he wants. Or Cornwell is just confused again about where she wants her story to go. And apparently Kay has learned nothing in all her years of risky cases and psychopaths - "I think I'll just open up my door to anyone." And I would have thought there was some chain of evidence rule about taking things home with you that are relevant to an open case. And the whole office problem thing was soooo lame. And her supervisor's whole role in the story was pretty ridiculous. Basically it contributed nothing to the overall story, which is pretty weak to begin with. And what happened to him anyway? I always liked her books because of the realism. But murder scenes with no detective present? Federal agencies not seeing Lucy as the loose cannon she is, and benching her until she gets some psychiatric help? Not to mention the conflict of interest between Lucy's personal and professional life and how inappropriate her behavior is. Sucessful detectives put back in uniform for no reason? No checks and balances on the processing of drugs through a morgue? And what happened to the cartel? Guess that's supposed to encourage us to buy the next book - I think I'll just borrow that one from the library.
