REVIEW OF SAMPLE PEDIATRIC HEAD TO TOE ASSESSMENT DOCUMENTATION

- "The Screwtape Letters" is the absolute best book I have ever read. It is a very well written book. It really makes you think. C.S. Lewis' style is exquisite. He paints with words as an artist paints with pictures and a musician with notes and rhythms. While still being the best book I have ever read, it is also one of the strangest. Screwtape, an experienced devil, teaches his nephew, Wormwood, how to win a soul over from the so-called "Enemy", who is the Lord Jesus Christ. While he is doing this, he teaches the reader about the techniques that Satan uses to distract Christians away from God. Therefore, he is teaching us how to live better Christian lives and avoid giving in to temptations. He shows us through the example of his nephew, Wormwood, trying to win over a particular Englishman. He tries to make him think that what he is doing is not sin. Even though, in the end, the man is not won over, we see how so many people go astray without even realizing it. This is an excellent book and I would recommend it to anyone looking for a challenging book to read.

- Being an at home mom of two, I was in love with Jonni's 1st book "Miserly Moms". I was excited to read "Frugal Families" but instead was disappointed to find that it contained much of the same information.....not my best "frugal" purchase!The content, although, would be valuable to someone that has never read her first book.....but I would suggest that they try MM instead....
