REVIEW OF JOSEF MULLER BROCKMANN PIONEER OF SWISS GRAPHIC DESIGN

- I admit I did not buy this book. I found it in the lost-and-found bin at work; thumbed through some passages during lunch breaks; waited 30 days until no one claimed it, and took it. Only when I read it through did I realize this is one of the most important books I own. I am not well-traveled, but enjoy Crichton's fictional work, from "Andromeda Strain" to "Jurassic Park." He is obviously intelligent, imaginative, and writes well. His adventures abroad are fascinating. But what changed my life and the lives of several people I know are the recountings of inner experiences: the things no rational person acknowledges day-to-day. In this book, Michael Crichton- a medical student- admits to finding Ram Dass's New Age viewpoint puzzling and strange at first. In subsequent chapters, he quits his promising medical career to pursue writing. From there his exploits become stuff of fantasy; shooting a film with Sean Connery, traveling to countries he had previously never heard of, becoming

rationaly convinced that auras are real and can be seen. This is a book I read that transformed me from a skeptic to an open-minded pragmatist. That may seem like schlock at first, but think about it. Do you have the opportunity and means to travel to Thailand, or Hunza? Have you consulted intuitive psychics from around the world, or sliced open a cadaver? Buy this book. It may inspire you to explore inner realities like me, or reassure your agnostic point of view. In any case, you will read wondrous descriptions of Crichton's personal journeys. You will be compelled.

- This book is excellent and has changed my outlook on relationships. It is easy to

read, humorous and includes real life examples. I found out about this book through a friend and finished it in two days. I haven't been in many relationships and I often wondered why mine ended diasterously when I thought I was being a good woman to my man and doing all the right things. This book was an eye opener for me. We've all heard of "the rules", but Sherry Argrove is right on point in her book when she says it's not playing games, it's about taking control of your life and not allowing a man to have a 100 percent hold on you. THIS BOOK IS A MUST READ FOR ANY NICE GIRL THAT IS TIRED OF BEING TAKEN FOR GRANTED!!!!!!
