For the two-semester A&P course. Equipping learners with 21st-century skills to succeed in A&P and beyond Human Anatomy & Physiology by best-selling authors Elaine Marieb and Katja Hoehn motivates and supports learners at every level, from novice to expert, equipping them with 21st century skills to succeed in A&P and beyond. Each carefully paced chapter guides students in advancing from mastering A&P terminology to applying knowledge in clinical scenarios, to practicing the critical thinking and problem-solving skills required for entry to nursing, allied health, and exercise science programs. From the very first edition, Human Anatomy & Physiology has been recognized for its engaging, conversational writing style, easy-to-follow figures, and its unique clinical insights. The 11th Edition continues the authors' tradition of innovation, building upon what makes this the text used by more schools than any other A&P title and addressing the most effective ways students learn. Unique chapter-opening roadmaps help students keep sight of "big picture" concepts for organizing information; memorable, familiar analogies describe and explain structures and processes clearly and simply; an expanded number of summary tables and Focus Figures help learners focus on important details and processes; and a greater variety and range of self-assessment questions help them actively learn and apply critical thinking skills. To help learners prepare for future careers in health care, Career Connection Videos and Homeostatic Imbalance discussions have been updated, and end-of-chapter Clinical Case Studies have been extensively reworked to include new NCLEX-Style questions. Mastering A&P features new Interactive Physiology 2.0 tutorials, new Focus Figure Mini-Animations, and new customizable Practice Anatomy Lab (PAL 3.1) Flashcards, complementing Human Anatomy & Physiology and providing a cohesive learning experience for today's learners. Also available with Mastering A&P Mastering(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Mastering A&P assignments support interactive features in the text, including new Interactive Physiology 2.0 tutorials, new, customizable Practice Anatomy Lab (PAL) Flashcards, new Focus Figure "Mini-Animation" Coaching

### Human Anatomy Pearson

Foreword by Ita Buttrose, National President of Alzheimer's Australia. Living with Dementia: A practical guide for families and personal carers provides a sensitive, direct and highly accessible account of the complexities and challenges that a diagnosis of dementia presents. Written by aged care experts including academics, nurses, medical practitioners and family advocates, Living with Dementia offers evidence-based research, supported by clear chapter outcomes, key terms and real-world examples. Practical strategies are integrated throughout to support caregivers, paid and unpaid, in the home environment and in residential care settings. The book offers advice on how to manage everyday activities such as feeding, toileting, personal hygiene and grooming, and coping with challenging behaviour. In recognising the needs of the whole person, mental stimulation and spirituality are also addressed. An introduction to commonly used medications, complementary therapies and effective communication strategies are provided, as well as information about caring for the dying, and most importantly, looking after you - the carer. Whether you are an Assistant in Nursing, an Enrolled Nurse, a family member or a friend caring for a loved one, Living with Dementia will assist you to move beyond the negative perceptions, and enable a meaningful life for the person with dementia, within the limitations of the disease.

### **REVIEW OF MARIEB 10TH EDITION HUMAN AP**

- IMO this is superior to both On The Road and Desolation Angels (which I found slow-moving and very hard to finish). Dharma Bums is a classic that I usually reread once a yr.
- I loved "On The Road" but this is the book that I recommend if someone wants to read only one Jack Kerouac novel. What made the reading of this book extra special for me was that while I was reading about Ray Smith and Japhy Ryder and Henry Morley climbing a California mountain, I was camped out 12,000 feet up on a California mountain on a very cold, early spring night reading this book in my sleeping bag inside my tent by lamplight. It was glorious because I could really imagine I was on that mountain with Ray and Japhy. The one slight quibble I've also had with the story is when Ray has the questionable insight that "you can't fall off a mountain". Oh yes you can; people die from it every year. "On The Road" will soon be released as a movie, and I hope it's a big success so that someone decides to make "Dharma Bums" into a film.
