Where other books on the CMM get sidetracked on nice to know, but not

essential information, this stays on track, squarely aimed at achieving the targets. You get policies, process flows and procedures for each KPA, as well as a transition plan and questionnaires. In short, all of the important artifacts to get you from level 1 to 2, or from level 2 to 3. These artifacts cover the entire implementation cycle from how to start to final assessment. If you are serious about attaining level 2 or 3, not only will this book save time and prevent false starts and retracing steps, but the companion CD ROM, "HOW TO IMPLEMENT THE CMM - SOFTCOPY DOCS" will save even more time because all of the artifacts are provided in MS Word, Excel and PowerPoint formats.

- Forensic pathologist Temp Brennan spends part of each year in North

Carolina and part of it in Quebec -- investigating death. Usually her investigations find her examining bodies and bones of historical deaths or of recent deaths where normal means of pathological investigation aren't effective. Author Kathy Reichs clearly knows her pathology. Herself a practitioner, she makes her field exciting for the reader to learn about. In addition her character Temp Brennan finds herself in the midst of people whose deaths have been quite mysterious. Death Du Jour travels from uncovering the hundred year old remains of a nun who is believed to be a Saint to the sleaziness of a cult who might just be killing people as part of their worship. Temp Brennan isn't just a laboratory investigator. She is indeed one solid

pathologist who is not particularly willing to let a case close without getting to the bottom of it. A fascinating world and a well told mystery.
