Edward x

- COCKTAILS FOR THREE is a story about 3 GFs and their chaotic lives. All 3 work for the fictional magazine, the Londoner. Each struggles with relationship issues. Candice is an idealist who disses her too-friendly flat neighbor, Ed, but eagerly embraces a stranger named Heather. Roxanne has a secret married lover. Maggie is a new mother who is exhausted and feels like a complete failure. All 3 central characters are likable even when they are not behaving very well. I felt compassion for Maggie who was clearly exhausted and overwhelmed by motherhood. I wanted to slap Candice who was so bent on being Mother Theresa that she was completely blind to reality. I wanted to hug Roxanne then tell her to get her own life and not steal someone else's. If the reader cares about the central figures in a novel the author has successfully brought her characters to life. Madeleine Wickham has managed to weave mystery, intrigue and even a sense of reality into each storyline. Cocktails for Three has a bit of "Mean Girl" in it and the arrogant vindictive ex-boyfriend everyone loves to hate. It's fun, easy to read and engaging. Once you start it you won't want to put it down. Highly recommended.
