## REVIEW OF

## **MAZDA ROTARY ENGINE CARS KOCHENORE**

- Dear Reader, I have a special interest in this book and one of its authors. Cecil Rost was our son Christopher's therapist. She and this book have helped in making Christopher's life better. He still has a long way to go but using this book has helped us understand how we could and do help him and his sensory difficulties as they relate to food,

noise, texture and the world outside the home. Thank you Cecil, You and your book are the BEST Linda

- The Book took on too many games to provide any kind of useful information on how to play. It should be used more as an introduction to the various rules of the different styles of poker. Touched only briefly on the issues of starting hands and calling bets in each of the different games.
