"Cited more than 450 times in state appellate courts, Ehrhardt's Florida Evidence covers both civil and criminal litigation. In this treatise, a former federal prosecutor reviews every new Florida and federal case and statute that deals with evidence and offers up-to-date discussions of a wide range of evidentiary topics, including significant coverage of electronic records issues. Recent updates cover the application of the Daubert standard in criminal and civil

cases, the attorney-client privilege, the work-product doctrine, and more."--

NFPA 101 Gaps Continue to Exist in Nursing Home Emergency Preparedness and Response During Disasters 2007-2010 Federal regulations require that Medicare- and Medicaid-certified nursing homes have written emergency plans and provide employees with emergency preparedness training. In a 2006 report about nursing homes that experienced hurricanes, we found that emergency plans lacked many provisions recommended by experts. In response, the Centers for Medicare & Medicaid Services (CMS) issued guidance checklists for

emergency planning of health care facilities, long-term care (LTC) ombudsman programs, and State survey agencies (SA). We conducted this study to assess emergency preparedness and response of nursing homes that experienced more recent disasters. Florida Evidence

So what are you awaiting? Beginning your Assisted Living Emergency Rule 58aer17 1 Rick Scott downloading journey today and experience all the advantages and convenience that the electronic world of publications has to offer!

REVIEW OF ASSISTED LIVING EMERGENCY RULE 58AER17 1 RICK SCOTT

• A virtually forgotten, but very good philosopher once commented that hypotheses derived by the inductive method, that is observation and experimentation, never can be proven absolutely, but are only as good as the last observation. (Karl Popper, "The Logic of Scientific Discovery", Amazon.com). The reader would be well advised to keep this comment in mind when reading this book by Jared Diamond. "Collapse", not counting an introductory section, consists of two parts.

The first and most fascinating section consists of Diamond's observations of societies that consciously or unconsciously made life choices that either led to their destruction or long term survival. His account of the successes and failures of various Norse and Polynesian societies is especially fascinating. He chronicles very accurately how the fate of a number of societies was directly related to their abilities to sustain their environments, to adapt to changing conditions, and their awareness of their surroundings. It is difficult to fault his observations and conclusions on the good and bad fates of these societies. The second part of the book is more

problematic. Diamond attempts to formulate a hypothesis to predict the success or failure of societies based on a five point framework derived from his observations of societies outlined in the first section. It is not clear that this formulation necessarily really holds true for all human societies all the time. Clearly a sustainable environment is indispensable for a stable and successful social structure. Yet this reviewer remains unconvinced that Diamond's hypothesis alone will ever be an

effective tool to predict the success or failure of all societies regardless of other variables. Still this book is well worth reading. Diamond is a wonderful writer and an acute observer. The reader can learn a great deal from this book and have an enjoyable read in the process.

- Stellar! Very reminiscent of Loretta Chase's Lord of Scoundrels. Racing plot, wonderful tension, formidable characters. Hotter than Loretta Chase. I'm eager to see if Ms. Laurens can top this!
