can also follow us on social media sites to remain up-to-date with our most current offerings.

So what are you waiting on? Start exploring Ccna Study Guides recaps today and uncover your next wonderful read!

REVIEW OF CCNA STUDY GUIDES

- SO pleased that Shute's work is now available on Kindle. This is one of my favorite books by this author. An older Englishman is caught in France in WWII just as the Germans invade, and ends up rescuing several children while trying to get out. This is a tale of quiet actions, heroism through perseverance and endurance, not

violent dramatics. This grandfather - as with so many of Shute's fabulous characters - does the amazing, while thinking that anyone else would do the same. Two things were especially noteworthy: First, an American author probably would have romanticized the children more. Secondly, I found the psychology employed by the Germans when dealing with the French

citizens at the time of the invasion very interesting. It was an aspect I had never read before. Highly recommended.

- This is a very well written story that shows how amidst war and destruction there are still people who can keep their humanity. The author also demonstrates that advanced age is no barrier to good deeds and perilous undertakings.
