## **REVIEW OF ENTREPRENEURSHIP QUESTION ANSWERS OF CLASS 11 CBSE**

- This classic purchased for kids entertainment and education on a road trip but adults probably enjoyed it more.
- "The Dog that Wouldn't Be" by Farley Mowat is both a memoir of youth during the 1930's and personalized history of his dog Mutt. Like the best of Mowat's writing, this book focuses on a particular period of the author's life with irreverent humor and bitter sweet nostalgia. Many of Mowat's books concern animals and he is very much able to articulate how important pets can be in the life of a family. His writing is anthropomorphic in its ability

to place human characteristics into a variety of animal species. All pet lovers feel how animals become part of the family and take on personality all their own. Mowat's writing shows how even the lowliest of mutts can live a full life and effect all those who come into contact with him. Another strength of this book is its appeal for all ages. It takes quite a bit of talent to write a family appropriate book while keeping it interesting for older readers. Mowat's humor is his main capacity that enables him to do this. As he looks back on his youth the reader can feel both the excitement and innocence of childhood and how Mutt was such a part of the author's maturation. Mutt's beginning was quite ignoble as he was simply given away to the Mowat family. He got himself into all kinds of mischief in the various towns the author lived in during the 1930's. Through Mutt, Mowat explores his formative years on the Canadian prairies and the various adventures and travels he undertook with his mother and father. The Canadian wilderness also features prominently in the book as Mutt is Farley's constant companion as he increases his knowledge of the natural world and grows into adulthood. You

might also say that Farley and his dog "mastered" their surroundings, both in the countryside and in town. Besides Mutt there are several other characters that play into the book. The Mowat's were certainly nature lovers, often to the point of absurdity. Farley amassed such a collection of wild critters and pets in his house that they often butted heads, which provides the book with a lot of comic relief. Though there are numerous asides with various gophers, squirrels, owls and cats, Mutt is the author's prime companion. Whether its on the hunt, or playing pranks in town (such as climbing fences and ladders after cats), Farley and mangy Mutt are inseparable. This is quite a short book which can be read mere two or three days, yet it radiates warmth and the fondness for a childhood well lived. Although Farley was often socially awkward on account of his diminutive size, he found a sanctuary in naturalism which is fully described in this book. Despite its playful tone, the book ends quite sadly (as life often does), and heralds the coming of the Second World War, as Mutt's passing coincides with the onset of "the darkening tunnel of the years", as Farley calls it. Quite an enjoyable and eccentric read.
