REVIEW OF 747 ILLUSTRATED PROCEDURES GUIDE

- Helping Hyperactive Kids-A Sensory Integration Approach by Horowitz and Rost is a good book for anyone working with or a parent of hyperactive kids. It explains how the sensory systems in a child works and then gives TIP's for helping your child (infant, toddler, preschooler, teenagers and even adults can do to stimulate the senses. My favorite chapter was six, Tips of Dealing with Your Hyperactive Child. It had how to communicate, organize the day and foster calmness. In the back is a questionnaire for parents to "determine if a sensory processing problem is occurring in their children." This is a good book for my professional shelf. R. Stutz Foster Mom and Preschool Teacher
- Although the book was written in '80s, that is why it only cover spinnaker technique and old racing rules. However, it is not felt out of date.It covers all of the topics of dinghy race. The language is simple and all important points are well addressed and clearly explained. The chapters of Tactics and Stratey are particulary wonderful.It is an essential reading material for dinghy racers.
