REVIEW OF AN ATLAS OF ANATOMY FOR ARTISTS

- I remember reading an article where the author discussed which towers were possibly the two towers referred to in the title of the second novel of "The Lord of The Rings". Candidates included Ortanc, Barad-dr, Ecthelion, Minas Morgul, and Cirith Ungol. One could have included the Hornburg in the list as well, but this particular discussion did not include it. The author discussed several pairs of options, but for me the answer was simple, as it indicates at the end of authorized Ballentine edition of "The Fellowship of the Ring" that it is Ortahnc and Minus Morgal and that is where the action is focused for most of the two books contained in the "The Two Towers". However, if you watch

the film, it strongly points to two towers as Orthanc and Barad-dr. To confuse matters more, there is a letter from Tolkien to Rayner Unwin where he states that the two towers are Orthanc and Cirith Ungol, but remember that it wasn't Tolkien that split the work into three volumes and he was never happy with the title, and apparently he changed his mind later as he is the author of the note I mentioned above. Of course, to enjoy the book it really doesn't matter which two towers the title actually refers to, but it was an interesting discussion. I believe that the second volume of a trilogy is the most difficult one to evaluate. The reader is coming into a story which has already begun, and left with no real ending. In the case of "The Two Towers", Tolkien navigates those difficulties quite well. Though certainly one should read "The Fellowship of the Ring" first, there is a brief synopsis, and while each of the two books in the volume leaves the story hanging a bit, they are certainly reasonable places to leave the story off. "The Two Towers" was originally published on November 11th of 1954. Book III is titled "The Treason of Isengard" and covers the stories of all the characters except Frodo and Sam (who are the subjects of Book IV). It starts where Book II left off, with Aragorn hearing Boromir's horn. This book introduces numerous new characters such as Treebeard, Éomer, King Théoden, Lady Éowyn, and of course Grima Wormtongue. It is a tale rich in characters, and in large battles, heroism, and last ditch efforts. The book ends with victory against Saruman, but that is over-shadowed by the coming battle with Sauron and the forces of Mordor, as well as the lack of knowledge of what has become to Frodo and Sam. Book IV is titled "The Ring Goes East", though it has also been called "The Journey of the Ringbearers"

and by contrast with Book III there are very few characters. Frodo, Sam, and Gollum are the main characters of this book, though we do meet Faramir during the tale of the ring-bearers as they take the ring to Mordor. This book has a darker ending than Book III, as the book closes with Frodo having been poisoned by the venom of Shelob and has been taken by the enemy, with Sam struggling to rescue him. As with the first book in the series when compared with the movie, I personally prefer the book, though I have enjoyed the movie as well. However long the movie is, it is a condensed version of the book, and you will miss out on many significant characters and events, as well as be unaware of the changes which were made for whatever reason. The movies were a valiant effort to bring this effort to the screen, and they honor Tolkien's overall story, but to fully appreciate what Tolkien

created, you need to read the books.

- The third book of the trilogy is amazing, full of emotion. All of the hobbits become famous as heroes of the realm by accomplishing daunting tasks to help defeat the dark lord and gain freedom for Middle Earth. Saruman is reduced to a truly pitiful creature that is still full of spite. Aragorn is revealed as the rightful king and takes his place at the head of the realm. There are also a lot of real world lessons delivered in this book. Evil must be stood up to and fought against even with everything to lose. Freedom is the ultimate reward and valor deserves much respect. Some people will never repent or admit their mistakes but will always blame others for their downfall (Saruman). And many more I'm sure.
