An accountant's practice depends on making difficult decisions. To achieve the best results, individual accountants and accounting firms need a clear understanding of the ethical duties and decision-making involved in the four major functions of modern accounting—auditing, management accounting, tax accounting, and consulting—as well as a strong sense of ethical conduct to guide the certification and validation of reliable financial records. Now in its third edition, Accounting Ethics is a thorough and engaging exploration of the ethical issues that accountants encounter in their professional lives. Since the publication of the first edition in 2002, Accounting Ethics has become an indispensable resource for accounting courses and certification programs worldwide, known for its focus on real-world application, practical advice, reader-friendly guidance, and its insight into the effects of global change on the profession. Together with coverage of the contemporary regulatory environment—including the Sarbanes-Oxley Act, the Public Company Accounting Oversight Board, and the Dodd-Frank Wall Street Reform and Consumer Protection Act—this revised edition features expanded pedagogical resources such as new end-of-chapter case studies and discussion questions, and includes the updated AICPA Code of Conduct. Concise and dependable, Accounting Ethics sustains its reputation as an authoritative resource for practicing accountants, new professionals, students of accounting, and those who are considering the profession.

REVIEW OF CORNERSTONES OF COST MANAGEMENT

- THE BEST OF DAMON KNIGHT is one of numerous sci-fi author collections published by Nelson Doubleday in the 1970s. This particular title saw multiple formats and printings over the years, but as far as I can tell, the table of contents remained consistent. An introduction by Barry Malzberg and a quick intro by Knight lead to 22 short stories from the period 1949 - 1973. Each story has a brief foreword by Knight that provides some informative and/or entertaining background. The stories

primarily fit into the Twilight Zone mold of nightmare scenarios or twist endings; in fact, "To Serve Man" was adapted into one of the more popular episodes of the classic TV series. Included are: Not With a Bang, To Serve Man, Cabin Boy, Analogues, Babel II, Special Delivery, Thing of Beauty, Anachron, Extempore, Backward, O Time, Last Word, Man in the Jar, The Enemy, Eripmav, Likely Story, Time Enough, Mary, The Handler, The Big Pat Boom, Semper Fi, Masks Down, There. Knight had a marked talent for blending science fiction and horror, often with a darkly humorous edge. In that regard, his style has a lot in common with that of fellow Twilight Zone veteran Richard Matheson. But he also wrote novels and some highly-regarded literary criticism, in addition to being an editor. He squeezed a lot of output into his 79 years, and while this collection doesn't give a comprehensive overview of his work, it's a good way to brush up on his style. While the set-up of every story is very

well-done, some of them either don't progress very well or end with a "thud", so they're not all gems - considering Knight was a very outspoken literary critic, I'd be interested in reading some critiques of HIS work. The jacket cover of the Nelson Doubleday hardback from 1976 was illustrated by the great Richard Corben. His interpretation of a scene from "To Serve Man" owes quite a bit to the Twilight Zone adaptation. Let's just say that the aliens of Knight's story are nothing like the humanoid giants we saw on television, but they are no less bizarre.

- Remember when you were really young and 'grew out' of having pictures in your books? Well Joyce has 'grown out' of the English language, the great genius of literature evolved past all boundries and greater a work that traps you. Inescapably profound Inescapably brilliant
