out, take part in thoughtful conversations, and uncover brand-new literary treasures. And if you ever before need assistance finding the ideal publication, our experienced staff is below to supply personalized referrals.

## **REVIEW OF GUESS PAPER1 PIONEER MATHEMATICS**

- This was a very good read from start to finish. The characters were interesting, the plot well developed, and there's a nice unexpected twist at the end (though most people could probably figure it out if they were really paying attention). This book works well as both a romance and a thriller, and the author has

done sufficient research to lend authenticity to the radio station, police work, and psychological aspects of the book. Well done and highly recommended!

- I have read several DragonLance novels and enjoyed them immensely. When I picked up a copy of The Dragons, however, I was acting as a dragonlover, rather than a fan of the series. It is an epic about good versus evil, and provides a unique opportunity to study and get to know several dragons from their earliest days as disoriented hatchlings, to their last, as majestic beasts, sailing the skies that are theirs by birthright. The Dragons, written by Douglas Niles, is a

must for any tru dragonlover!
