REVIEW OF ULTIMATE VISUAL BASIC CONTROLS SOURCEBOOK WITH CD ROM

- I loved this book, but to be honest, I didn't read it in this form because the text was tiny and it was thick and unapproachable. I would get a different publication of this book, because it is a great read, but I don't like this one. I listened to this one as an audiobook, and it was AMAZING--get the one read by Frank Mullins if you like audiobooks, it was fantastic. Loved it, and recommend that version over this one.

- For a fascinating read, pick your favorite (yeah, right) business theory book about corporate culture and read it side-by-side with Orwell's masterpiece. The shifting truths, shameless propaganda and mindless work that drones like Winston Smith are subjected to illustrate the dark underside of corporate America that have resulted in the scandals of the early 21st centruy, including the likes of Enron, Tyco and others.Hell, if they served gin at work, the similarities would be complete for many workers.While Orwell is a pessimist, and sees nothing but a bottomless abyss, the careful reader can see glimmers of hope in the tired institutions of freedom of speech, and the press.Orwell's 1984 is as fascinating to read in the 21st century as it was when I read it for the first time in 1984.
