**REVIEW OF
FINANCIAL
ACCOUNTING
WILLIAMS 11TH
EDITION**

- The critics gushed over this one. While it is well-written, I couldn't help

wondering why it was written.

- I read this book twice while in Senegal and it really got me interested in the work of Zadie Smith. I have since read *White Teeth* which I too thought was amazing but quite different in approach and method. When looking to rate in some nebulous, objective manner the quality of an author's work, it may be best to look into what the author set out to accomplish in the first place. If Smith was setting out to do some sort of historical fiction or dramatized non-fiction about the American academic culture or do some scathing exposition of the dodgy world of Rembrandt criticism, she had done a bad job of it (Zadie Smith is not a

documentarian in the strict sense of the word, she is, however, a great recreator of contemporary Western society). That's why I don't think it's the case that she sought to do that kind of story. This book is about two things: middle age and social (interpersonal) politics, it is as much about the interaction between middle age and social politics as it is the way each of them affect the whole lives of the characters in the story. The story of Howard is terribly interesting because one can delight in his downfall as he realizes his agedness yet realize that the mistakes he makes along the way are at least human, if not understandable in some instances (the pridefulness of wishing

to be recognized for his academic work at the expense of his nemesis). Of course, Smith doesn't stray far from her character wheelhouse of hybrids too, which always adds some pretty attractive complication to the storyline. A great book on an interesting subject.
