### **REVIEW OF CHAPTER 7 NERVOUS SYSTEM ANSWER KEY PART 2**

- Clavell was perhaps the greatest Western writer of Asian historical fiction. In this epic novel he captures the spirit of the Western trading companies as they maneuver in British Hong Kong. We find out what has happened to the house and lineage first created in Taipan, and how the trials and tribulations have been passed from generation to generation. This book captures many of the strengths of the entire series:- Characters are portrayed as complex individuals, not just one dimensional drones- There's tons of history and cultural lessons hidden between the story lines- Character lines are carried cross-book in the series Definitely a solid (if not short) read!

- In browsing through many Java books in search of a potential text for an introductory class, I felt this one was pitched at the right level (and ended up reading it in its entirety). It will not teach you all of the considerable facilities that Java 2 offers, but I don't think that is its intent. It will serve well students with no prior programming experience. I was particularly impressed by the care put into the exercises.
