Keep in mind, reading testimonials can help you make notified decisions about what to read following and can expose you to brand-new authors and styles you might not have actually thought about previously.

REVIEW OF COMPLAINT RESOLUTION FORM TAKAFUL EMARAT

- I first read this novel in 1972, on recommendation from another veteran of the American military advisory effort in Vietnam. David Halberstam captured the essence of the military advisor's duty, and the ambivalent nature of the US Army's approach to it, perfectly. From my perspective, as one who performed the duty in less luxurious circumstances than those described in the novel, there were some substantive inaccuracies. However, the inaccuracies are irrelevant when compared to the story in its entirety. I can say that I knew men similar to each of the characters in the novel--both American and Vietnamese--and Halbertstam depicted them very, very well. For one who served in such circumstances, even 45 years ago, the novel can evoke emotional responses. For a reader who has experienced military advisory duty anywhere, there should be at least some instances of reminiscence. For other readers, especially for those who would like to grasp something of the Vietnam conflict different from the current conventional wisdom, this is a worthwhile read...take it from someone who has been there.

- One of the foundations of SF is examining the consequences of science and technology on society. Here Hogan creates two diametrically opposed societies - those of Earth founded on limited resources and those of the newly colonized planet Chrion having unlimited resources. You won't find deep character development in this book, the focus is on the effects of technology on society - what we can become. Telling the story from the viewpoint of soldiers on the second colonization starship traveling and landing on the planet Chrion, Hogan explores his vision of what humanity can be. Chrionians value and trade respect, possessions are in abundance and free from automated factories. On the second colonization starship traveling from a militarized Earth, imagine the consequences to those powers to be when character matters! Unlimited resources you ask? Hogan postulates, the mind is a unlimited resource.
