REVIEW OF ENVIRONMENT THE SCIENCE BEHIND STORIES 4TH EDITION CHAPTER OUTLINES

- I just bought my first bread machine (Breadman TR875). I read reviews saying that this is a great book. I can't agree more!!! I have been baking non-stop. I bring all my bread to my office to share (so I won't eat it all). So far, my favorite is the raisin bread and french bread. This book has such a variety of recipes. There is a recipe for honey butter in there that has been a huge hit at my office too!

- This is an outstanding book for bread machine owners. I have several good bread books including another by Hansperger but this one helped me to have a great experience with my bread machine. Most recipes are given in 1.5 pound as well as 2 pound versions. When I reviewed prior to purchase I thought it was repetitious and redundant, but once I used the book I realized the value of the author's hard work. I use a 1.5 pound loaf when baking in my Breadman Ultimate, and the 2 pound when baking in the oven. It is a large paperback book and can lay flat when following a recipe. My book is now over 4 years old and is falling apart - because I use it several times a week over many years, and use a clear plastic book holder. I have tried about 100 of the recipes and had good success with almost every one. I write notes beside the recipes so I can remember what I have tried and how it turned out. For several years I have been going through over 100 pounds of flour per year. The past year I have stuck with just a handful of recipes. My favorites include:- House bread. A simple daily bread for sandwiches and such. I alter to use about 1/4 cup of corn meal.- Tecate Ranch. It is a whole wheat bread. I have not tasted a similar bread elsewhere. I use sesame seeds instead of poppy seeds.- Semolina. My mother in law has a wheat allergy but enjoys eating this half-wheat bread without problems. Good in the machine or oven.- Limpa.- Pain De Maison Sur Polish. A recipe with a sponge starter. I let the starter sit for a day or several. It is fantastic when baked in the oven.- Roman bread. A flatbread like focaccia. The author presents an interesting story behind each recipe, which makes it fun to read. I expect every bread machine owner would be happy with this book.
