REVIEW OF BIOLOGY CHAPTER 13 GENETIC ENGINEERING VOCABULARY REVIEW

- Norris' book was so highly praised that some disappointment was inevitable. There are some good

insights, but they're mixed in with pompous, snobbish, quirky, cranky, and deliberately obtuse comments. Her language is frequently adolescent, with pointless vulgarity or slang. She is remarkably self-centered. Her model for this is Thomas Merton, but it's a pity she imitates all his worst habits!

- ...Not Quite as Advertised. Jocelyn McBride hates coming in second...especially coming in second to Hugh Brannon, an ex-lover and current nemesis. But the more she's around Hugh, the more she discovers a man who makes her laugh...who makes her discover something that's been missing in her life. Could it be love, like Hugh

claims?Tanya Michael shines in this romantic comedy!
