REVIEW OF BEGINNING ALGEBRA 7TH EDITION

- Having never read a Susan Andersen book before, my attention was caught by the unusual cover. Thinking nothing to lose, I bought the book and prepared to read "just a couple of chapters before going to sleep." Well forget the sleep, I finished the book through the wee hours of the morning. It was funny, a warm love story and had a plot - sometimes hard to find in romance novels today. "Baby, I `m Yours" is an easy reading book and will be enjoyed by all romance novel enthusiasts.
- Don't let the title of this book convince you that it's only for people who are divorced or divorcing. The content and concepts of this book can be valuable for anyone experiencing significant loss or separation of any kind. The 'Seven Spiritual Laws of Divorce' that form the foundation of the book, can easily be read as 'the seven laws of spiritual healing', or similar. They provide a step by step process for moving through the healing of a broken heart, no matter what the cause. Though I'm still happily married to the only woman I've ever wed, I often reference the laws and concepts of this book to assist me in living responsibly, creatively and gratefully. The Law of Surrender is one of my favorites, as it regularly helps me remember to cease resisting my life as it is, and trust that I'm loved held and supported by something larger than myself.
