We wish this short article has actually influenced you to explore Tintinalli Emergency Medicine 8th Edition Free Download, connect with fellow readers, and create your very own reviews. Happy reading!

## **REVIEW OF TINTINALLI EMERGENCY MEDICINE 8TH EDITION FREE DOWNLOAD**

- Shadow of the Hegemon is the sixth chronologically written book of the Ender's Game Series, the first sequel of Ender's Shadow (book five). Orsen Scott Card is an indisputable literary genius, and to critique his book is to dabble the black arts. Flawless characterization and storytelling is expected, and again, Scott Card weaves and stuns with each keystroke. Therefore, expect this 'review' to be only the most humble quibble and sigh. Shadow of the Hegemon follows the storyline of Bean and the rest of Ender's jeesh after the end of the Formic War. Following the known facts from previous (chronologically written) books, more was expected along the storyline of Peter, whom we know becomes a great political figure as the Hegemon. Instead, the story is almost usurped by Petra Arkanian; 'Hegemon' revolves around

Petra's kidnapping and Bean's well-plotted endeavors to rescue her (perfectly setting up the scene for the next book, *Shadow Puppets*). This is because of one of Card's greatest assets: his humility toward his inner circle of wise readers. Hegemon's afterward explains how a wise reader changed the scope of the book by suggesting (in an early manuscript) that the kidnapping plot of Ender's jeesh was too easily resolved. Card responded by extending the conflict of Petra's storyline, therefore changing the account of the entire book which ultimately spilled the expanding story into the next book, *Shadow Puppets*. Petra carries her part of the story superbly-- a perfect trade off for deviating from what we expected from Hegemon's title. Which brings me to Peter Wiggin, our Hegemon. Although Scott Card has stated that the order of reading the Ender Series matters little, with the exception of *Xenocide* and *Children of the Mind* (<http://www.hatrack.com/faq/003.shtml>), I must make the case for reading 'Hegemon' after *Speaker for the Dead*, *Xenocide*, and *Children of the Mind*. *Shadow of the Hegemon* illustrates the classic struggle of deciding between the better of two evils, in this case, between Achilles de Flandres and Peter Wiggin. Except, it's an obvious choice. Achilles makes another chilling bow in 'Hegemon' as Bean's arch nemesis with a terrifying performance as the resident sociopath and psychopath, the all around bad-guy. Peter, however, makes a mild case as a contending antagonist. Not only is he unconvincing as the barely-better villain, reading 'Hegemon' before the above mentioned books aggressively dilutes the shocking and genius plot twist in *Children of the Mind*. Lastly, our hero, Bean. Within a single chapter, we are

reminded ten-fold why we love Bean. While the scope of the Formic War in *Ender's Shadow* may have been arguably riskier, Hegemon deals with War on earth which strikes closer to the reader's heart, and Bean is just as confident and reassuring. Never are we left with the mediocre feeling that Bean is smart for smart's sake; Card grows this character with craft, balancing Bean's brilliance with an equally trying plot reeking of the despicable Achilles. Bean carries this book with his irresistible aplomb while Card continues to branch his Ender's Series with their two distinct story lines and unique tones. Conclusion: Never are we left with the feeling that the author is wringing the last drops from his previous success; Hegemon proves possible that the limits of literary mastery can be shattered, yet again. 4 Stars, and only because of the 5 Stars I must reserve for 'Speaker of the Dead'. Because 'Speaker' outranks Amazon's star system.

- *Ender's Game* is a classic; *Ender's Shadow* is remarkably good; this book I found disappointing. It picks up where *Ender's Shadow* left off: the war against the aliens has been won, which means that all of the domestic tensions set aside for that battle have re-emerged in full force, and the brilliant children who won the war for Earth become prizes in those battles. Again we focus on Bean with more emphasis on Peter Wiggin, Ender's brother. Early on, it's a gripping read as many of the child generals are kidnapped and attempts are made on Bean's life. Later on, though, the book bogs down in pages and pages of talk about how to deal with the politics, which I found tedious. I also found limits to my suspension of disbelief with the continued dominance of the children

over the adults in military and political strategy. One sees that in young adult fiction and can accept it, but I don't see very many young adults finding this

book very interesting. As I said, it's rather a disappointment and not at all up to the level of its predecessors.
