REVIEW OF ANNUAL EDITIONS PHYSICAL ANTHROPOLOGY 12 13 BY ELVIO ANGELONI

- Thanks to Patricia Cornwell! Before reading "From Potter's Field" I was afraid that I couldn't make it as a professional

writer. But now I know that if she can sell books, so can I. With the build-up this writer has received, I expected a better read. The first person narration makes Dr. Scarpetta sound like an egotist. A character who is always right like our good doctor needs someone besides herself to narrate her exploits. Sherlock Holmes would be an insufferable boor had his creator not had the sense to tell us of his superiority through the eyes of faithful Dr. Watson. How many times can you use the word "I" in a 412 page book? How about using the third person, Ms. Cornwell? Then we'd know what characters other than Dr. Scarpetta are thinking. Another gripe--too much information. Ms. Cornwell substitutes technical jargon and unneeded facts for solid characterization and plot. And I

realize this may seem picayune, but does the writer, her editor or her proofreader use spell check? The hard-cover book has a number of spelling and grammar errors--amazing! If you are a fledgling writer like me and want a little motivation to begin submitting queries for manuscripts, read this book--you'll find encouragement here! If you are a reader in search of quality fiction, you might want to keep looking...

- For as important as Economics is to the Past, Present and Future of Humanity, its met with a collective yawn and almost completely misunderstood! For just 20 bucks and 8 hours of your time you can have a mental grasp on the engine that drives...everything. Unless you are completely vacant this book can change your mind. Very important ideas. Give this one to everyone you know. If one person reads it, you have helped humanity.
