REVIEW OF MADER BIOLOGY 11TH EDITION QUIZZES

- Besides my Bible, there has never been a book that I have read more often than "The Hobbit." Since I was ten years old I have read it at least once every single year. It is great! Am I biased, of course; but does that change the beauty of this book, no! This is a great book for many reasons. I will give you three: 1) Great English usage. Tolkien was a master of the English language and it shows in this book (maybe even more so than in the LoTR cycle). He is creative and concise. At times he is gives you lots of information and description, while at other times he is sparse; but either way he gives you just exactly what you need to know. When you read this book, note how Tolkien uses adverbs. For some odd reason the adverb is out of fashion to most fiction authors these days, thus, reading Tolkien is a breath of fresh air. 2) The richness of the story is undeniable. This book set the bar for a modern fantasy staple: the quest story. Without "The Hobbit" there would be no Dark Tower, Drizzt, Demon Wars, Robert Jordan, Terry Brooks, etc. "The Hobbit" is and always will be the defining novel of the fantasy genre. 3) It is fun! Hobbits are intriguing, the quest is exciting, and the interactions between the characters are authentic (even though they aren't human!). Tolkien captured the human spirit in this book in a way that I have never read before or since. Every page will make you smile, cry, or laugh out loud! So, am I biased? Yes! But "The Hobbit" is still the best!

- Okay, if you've never in your life read an epic fantasy then you might like it. But still, when I read this book I was at a point where I was reading four hundred-page novels per two to three days, but it took me hours to get through the first couple chapters. It doesn't really make sense how the dwarves would want such a bumbling fool to help them. And anyway, dwarves and Hobbits, etc., etc. aren't exactly my favorite fantasy races. Oh well.
